MAYO SYNAPSE '25-'26

Elijah Don, Tanner Hochberg, Alex Roussas, Ian Marcon, Ethan Vanderpool

Project Overview

Our team is developing innovative solutions to improve healthcare communication and reduce physician burnout, with a focus on empathetic patient interactions during difficult conversations.

Design History File (DHF) - Table of Contents

This is the single authoritative index for all DHF elements, folders, and documents. Links below go directly to GitHub paths so they are always clickable for the instructional team.
